NEW PRODUCT RELEASE

RACE-BRED to provide increased performance for track specific Superbikes!

June 2013, [K&N Engineering, Inc.](#), releases a Superbike must have, purpose-built RACE-SPEC High-Flow Air Filter for the 2007-2009 DUCATI 1098 and 2010-2011 DUCATI 1198 model Superbikes. The K&N RACE-SPEC Air Filter is designed to open up the intake tract and provide low restriction with its 2-layers of Race Media. **Allow your modified Superbike to breathe when being put to use as a track day performer.**

DESCRIPTION: "RACE-SPEC" HIGH-FLOW AIR FILTER™

REPLACES OE PART NO: [42610201A](#)

APPLICATIONS: DUCATI 1098/R/S; 2007-2009

K&N PART NO: [DU-1007R](#)

MSRP: \$75.00

KEY FEATURES:

- ◆ K&N's purpose built RACE-SPEC High-Flow Filter Media
- ◆ Designed with approx. 25% less pleats to open up the intake tract
- ◆ Built with only "2" Layers of special pleated cotton media
- ◆ Pleated cotton media helps to provide low restriction, increasing horsepower and torque
- ◆ Durable, molded application specific sealing bead

PRODUCT DETAILS:

K&N's DU-1007R RACE-SPEC High-Flow Air Filter was designed for track specific DUCATI 1098R's and 1198R's. The "RACE-SPEC" Air Filters are purpose-built to provide very low restriction, which when tuned properly, results in increased throttle-response and rear wheel horsepower. Opening up the intake tract with fewer pleats and building the filter with only 2 layers of K&N's special media helps to provide even lower restriction and even more high flow than the standard High-Flow Air Filters. This filter is designed to slide directly into the OE Air box without any fitting or cutting required. The one-piece molded Plastisol frame offers a durable sealing bead for a snug fit. K&N High-Flow filters have been made in the USA for over 40 years.

- Fuel-Management Modifications MANDATORY
- Closed-Course Competition Use ONLY
- Washable & reusable, pre-oiled and ready for RACE
- [Covered by K&N One-Year Limited Warranty®](#)
