

INSTALLATION INSTRUCTIONS

Part Number HA-8084

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter may be used in a stock machine, with no modifications required. However, if any modifications have been made, tuning/jetting adjustments may be required. The following procedure **MUST** be followed to ensure a proper fit and seal of the K&N Filtercharger®.

INSTALLATION

1. Remove the stock air filter.
2. Remove the rubber grommet from the top of the stock air filter.
3. Install the rubber grommet in the top of the K&N Filtercharger®.
Note: If the stock grommet is damaged, a new one should be purchased from your local dealer.
5. Carefully clean the air filter sealing surface in the air box base.
6. Apply the provided gasket into the air box base.
7. Install the K&N Filtercharger® into the base of the air box.
8. Reinstall the air box lid and tighten stock wingnut. Do not overtighten.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
