 - ◆ No Fuel-Management Modifications necessary
 - ◆ Made in the USA for over 40 years
- One-Year Limited Warranty®*

PRODUCT DETAILS:

K&N's "new" KT-9907 High-Flow Air Filter was developed exclusively for KTM's 2007-2013 990 Adventure. This OE Replacement Air Filter was designed to provide low restriction, resulting in increased throttle-response, horsepower and torque. This filter is made with our "XD" extra-fine weave pleated cotton for improved efficiency in dusty conditions. The K&N 1 ¼" deep pleated media provides a large filtration area offering high-flow, high-capacity, long service intervals and [excellent filtration](#). Designed to drop directly into the OE Air Filter Assembly, there should be no extra fitting or cutting required. The molded Urethane frame offers a pliable yet secure mounting and sealing surface for years of long lasting protection in your OE Air Filter Assembly.

- No Fuel-management modifications necessary to obtain increased performance
- K&N High-Flow Air Filters have been made in the USA for over 40 years.
- Washable & reusable, pre-oiled and ready for installation
- [Covered by a K&N One-Year Limited Warranty®](#)
