PRODUCT DETAILS:

K&N's "new" PL-1710 High-Flow Air Filter was developed specifically for POLARIS's Ranger RZR 170 Youth Model Side by Side. This filter is designed to provide low restriction, resulting in increased throttle-response, horsepower and torque. The deep 5/8" pleated "XD" media provides a large filtration area offering high-flow, long service intervals and [excellent filtration](#). This filter is designed to slide directly onto the OE Air Filter Intake without any fitting or cutting required. The pliable Urethane clamping surface offers absorption of vibration in extreme environments while ensuring a secure fit and extra-long life. K&N High-Flow Air Filters have been made in the USA for over 40 years.

- No Fuel-management modifications necessary to obtain increased performance
- Washable & reusable, pre-oiled and ready for installation
- [Covered by K&N's One Year Limited Warranty®](#)
