K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/Million mile limited warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open hood and locate cowl cover on the passenger side of vehicle. Fig. 1
2. Locate the two screws and remove. Fig. 2
3. Once both screws and grommets are removed, lift cover up to gain access to cabin filter. Fig. 3 & 4
4. Press down on cabin filter tray and out to remove from cabin filter housing. Fig. 5
5. Remove dirty cabin filter from cabin filter tray. Once dirty cabin filter is removed clean any debris that might be present on the tray and in the housing. Fig. 6
6. Install K&N® Cabin Filter into cabin filter tray. (NOTE: Feature on cabin filter tray and K&N Cabin Filter. Filter will only fit one direction) Fig. 7 & 8
7. Reverse steps 1-5 to complete cabin filter installation. With the cabin filter installed, clean an area on the housing and apply the K&N® Stop Decal. The decal will help notify others that this is a re-usable cabin filter.
