K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10-year/Million Mile Limited Warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open hood and locate cowl panel.
2. Remove upper engine bay weather-strip and slide cowl panel out. (Fig.1 & 2)
3. Remove bolt and unlock the top 3 lock screws to remove housing cover. (Fig 3 & 4)
4. Slide drip channel out of cabin filter housing. (Fig. 5 & 6)
5. Remove Dirty Cabin Filter. **NOTE: remove any dirt and debris that may be present in housing.** (Fig. 7)
6. Install K&N® Cabin Air Filter. (Fig.8)
7. Reverse step 1-4 to complete installation.
