

INSTALLATION INSTRUCTIONS

Part Number: YA-6602

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

INSTALLATION:

1. Remove the air box lid to gain access to the air filter and remove the dirty air filter.
2. Clean any debris from inside the air box.
3. Clean the inside of the air box around the intake opening
4. Install the K&N filter into the air box with the wide tab down. (Fig. 1)
5. Carefully push on the rubber end until it stops against the air box. (Fig. 2) **Do Not push on the filter media.** (Fig 3)
6. Reinstall the air box lid.
7. Clean an area on the air box and apply the K&N Stop Decal. The decal will help notify others that this is a reusable air filter.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.

CLEANING:

K&N Engineering, Inc., suggests checking the air filter element periodically for excessive dirt build-up. Depending on your driving conditions, we recommend cleaning your air filter every 50,000 miles. To clean and re-oil, purchase our filter Recharger® service kit, part number 99-5050 or 99-5000 and follow the easy instructions.
