

AUTOMOTIVE

PERFORMANCE PRODUCTS

In the early 1960s, two motorcycle racers, Ken Johnson and Norm McDonald (K&N), developed a ground-breaking new idea for an air filter—one that could perform under the demands of dusty, dirty off-road environments.

Five decades later, K&N® is still driving filtration technology forward in the aftermarket, offering protection for everything from top-fuel dragsters to commuter vehicles across the globe.

HERE'S TO THE NEXT 50 YEARS!

K&N® is an industry-leader in automotive filtration technology—offering best-in-class products for more vehicle applications than any other aftermarket filter manufacturer.

World's Best Air Filter

WHAT MAKES THE WORLD'S BEST AIR FILTER?

EPOXY-COATED AIRCRAFT-GRADE ALUMINUM MESH
Plated on both sides of the cotton filter media for protection and long-lasting durability.

4 TO 6 LAYERS OF SURGICAL-GRADE COTTON GAUZE
Pleated cotton filter media act as a physical barrier to contaminants, with pleats specifically engineered to provide a large capture area.

CNC BILLET ALUMINUM FILTER MOLDS
Designed using advanced software and precision milled from billet aluminum for a repeatable level of premium quality.

DURABLE TEAR-RESISTANT URETHANE FRAME
Liquid urethane is custom-poured and cured for a guaranteed fit, and engineered to last for a million miles of use.

THE SECRET SAUCE - RED 201 FILTER OIL
The original red filter oil is what separates K&N from the pack. The tacky oil helps trap-and hold-dirt and contaminants, keeping them in the filter and out of your engine.

HIGH-FLOW AIR FILTERS™

THE WORLD'S BEST AIR FILTER

K&N® air filters are the pinnacle of automotive filtration. We combine precision engineering, uncompromising design, and extreme testing to give you the unbeatable lifetime protection of The World's Best Air Filter™.

WASHABLE FILTER MEDIA

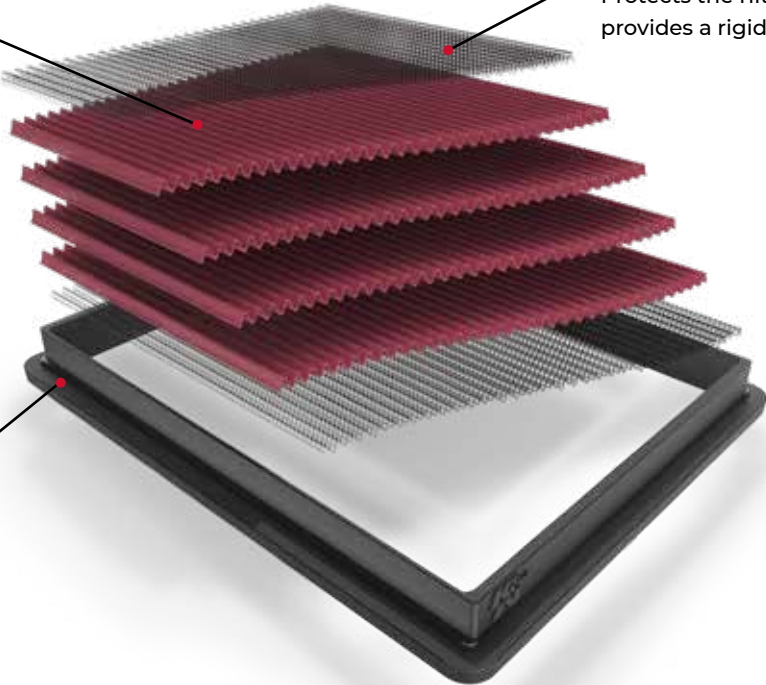

High-flow cotton media captures dirt and particles

EPOXY-COATED SCREEN MESH

Protects the filter media and provides a rigid structure

DURABLE URETHANE FRAME

Rugged enough to last for a million miles of use

10 Year / Million Mile
Limited Warranty

More Power and
Acceleration

ORIGINAL AIR INTAKE SYSTEMS

THE CLASSIC K&N® INTAKE THAT STARTED IT ALL

Advanced computer-aided design software available is used to create custom-fit, lightweight kits for specific applications, offering a radical increase in airflow and performance, with an open air box design for maximum airflow.

CUSTOM HEAT-RESISTANT INTAKE TUBE

Roto-molded, lightweight tube increases airflow

VEHICLE-SPECIFIC HEAT SHIELD

Helps keep inlet air cool and oxygen-dense

K&N® ORIGINAL HIGH-FLOW AIR FILTER™

Increases airflow by up to 50% for more power

10 Year / Million Mile
Limited Warranty

Guaranteed Power
and Acceleration

Some intakes are not legal for sale or use on any pollution controlled motor vehicle in California. See knfilters.com for CARB status on each part for a specific vehicle.

ENCLOSED AIR INTAKE SYSTEMS

K&N® PERFORMANCE IN A VISIONARY NEW PACKAGE

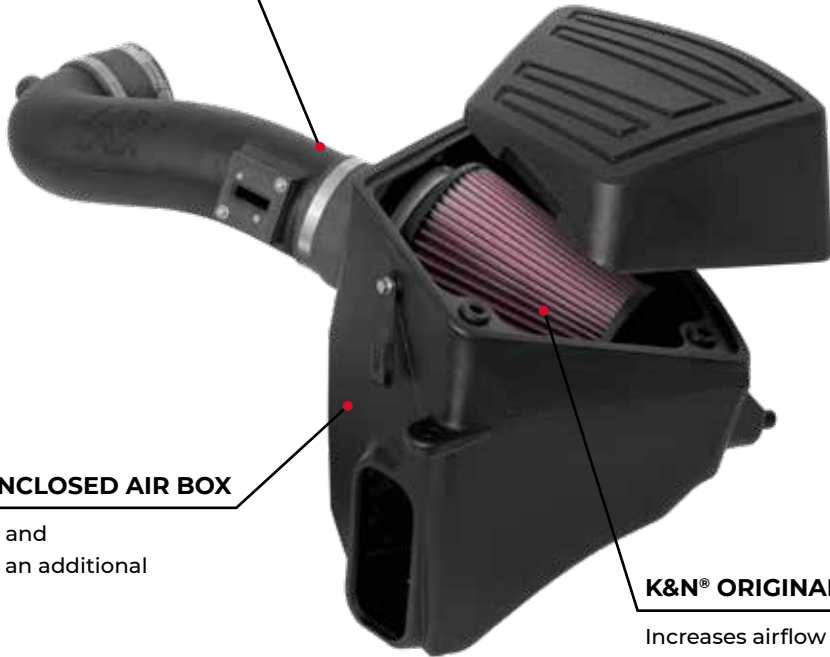

CAD-designed to ensure a precise fit, a new enclosed air box design provides K&N's highest level of filter protection from engine heat.

CUSTOM HEAT-RESISTANT INTAKE TUBE

Roto-molded, lightweight tube increases airflow

VEHICLE-SPECIFIC ENCLOSED AIR BOX

Helps keep inlet air cool and oxygen-dense and adds an additional level of filter protection

K&N® ORIGINAL HIGH-FLOW AIR FILTER

Increases airflow by up to 50% for more power

**10 Year / Million Mile
Limited Warranty**

**Guaranteed Power
and Acceleration**

Save \$500 over the life of your filter

Lifetime limited warranty

Large surface area is designed to stop contaminants

Reduce landfill by 200ft² per home

Achieve the highest washable filter efficiency rating, Merv 11

AMERICAN V-TWIN

ONE AMERICAN CLASSIC DESERVES ANOTHER

Trust the American-made, racer-tested performance products that riders have relied on for over fifty years. Keep more power available at the turn of the throttle with premium air filters, intake systems, and oil filters.

PERFORMANCE INTAKE SYSTEMS

- Guaranteed to increase horsepower
- Improved induction sound
- Replaces OE air filter assembly
- Multiple styles to choose from
- Developed around an oversized K&N® High-Flow Air Filter™
- 10-Year/Million Mile Limited Warranty

Some intakes are not legal for sale or use on any pollution controlled motor vehicle in California. See knfilters.com for CARB status on each part for a specific vehicle.

HIGH-FLOW AIR FILTERS™

- Designed for increased airflow and high performance
- High capacity and long service intervals
- Specifically designed to fit into your OE air filter assembly
- Pre-oiled and ready to ride
- 10-Year/Million Mile Limited Warranty

WRENCH-OFF® OIL FILTERS

- Synthetic filter media provides excellent protection and high flow rates
- Fast and easy Wrench-Off® removal
- Heavy-duty canister for outstanding durability
- 1-Year Limited Warranty
- Ideal for use with synthetic or conventional oils

BUILT FOR SPEED ON THE ROAD OR THE TRACK

K&N® offers premium performance parts to help enhance your ride. Our progressive designs are track tested and racer approved.

HIGH-FLOW AIR FILTERS™

- Designed for improved throttle response, horsepower, and torque
- Up to 50% more airflow than typical disposable paper air filters
- Washable pleated media provides a large filtration area for long service intervals
- Specifically designed to fit into your OE air box
- Pre-oiled and ready to ride

RACE-SPEC AIR FILTERS

- Purpose-built for racing and closed-course track bikes
- Designed to increase horsepower by delivering extremely low restriction
- Specially pleated two-ply cotton race filter media
- Fewer pleats than standard K&N® replacement air filters for even greater airflow
- Washable and reusable

Fuel management modifications WILL be necessary.
These filters are designed for closed-course competition use only.

WRENCH-OFF® OIL FILTERS

- Synthetic filter media provides excellent protection and high flow rates
- Fast and easy Wrench-Off® removal
- Heavy-duty canister for outstanding durability
- 1-Year Limited Warranty
- Ideal for use with synthetic or conventional oils

SPORT TOURING

TRUSTED PROTECTION FOR YOUR LONGEST RIDES

Keep exceptional power at your fingertips with K&N performance products for sport touring bikes—
with the trusted protection to keep you on the open road.

HIGH-FLOW AIR FILTERS™

- Designed to provide increased horsepower and torque
- Up to 50% more airflow than typical disposable paper air filters
- Pleated media provides a large filtration area for long service intervals
- Fits into your OE air filter assembly
- Washable and reusable
- Pre-oiled and ready to ride
- 10-Year/Million Mile Limited Warranty

WRENCH-OFF® OIL FILTERS

- Synthetic filter media provides excellent protection and high flow rates
- Fast and easy Wrench-Off® removal
- Heavy-duty canister for outstanding durability
- 1-Year Limited Warranty
- Ideal for use with synthetic or conventional oils

PROTECTION FOR ANY ADVENTURE

You need plenty of power if you want to get off the beaten path—and protection for your engine from dust, dirt, and mud. K&N performance products help upgrade your adventure bike, enhancing your outdoor experiences.

HIGH-FLOW AIR FILTERS™

- Designed to provide increased horsepower and torque
- Up to 50% more airflow than typical disposable paper air filters
- Pleated media provides a large filtration area for long service intervals
- Fits into your OE air filter assembly
- Washable and reusable
- Pre-oiled and ready to ride
- 10-Year/Million Mile Limited Warranty

PERFORMANCE OIL FILTERS

- Synthetic filter media provides excellent protection and high flow rates
- 1-Year Limited Warranty
- Ideal for use with synthetic or conventional oils

MORE POWER FOR THE DIRT AND DUNES

K&N performance products are engineered to unleash the true potential of your side-by-side. Whether you're blazing a trail or climbing a dune—K&N can help keep you running strong.

PERFORMANCE INTAKE SYSTEMS

- Guaranteed to increase horsepower and torque
- Typical installation in less than 90 minutes with basic hand tools
- Oversized K&N "XD" High-Flow Air Filter™ for high capacity and efficiency

Some intakes are not legal for sale or use on any pollution controlled motor vehicle in California. See knfilters.com for CARB status on each part for a specific vehicle.

HIGH-FLOW AIR FILTERS™

- Designed to provide increased horsepower and torque
- Exceptional protection from dirt
- Washable and reusable
- Multiple layers of tightly woven "XD" cotton media offer excellent filtration in dusty conditions
- Washable and reusable

NEW!

PERFORMANCE AIR SCOOPS

- Improve airflow, throttle response, and engine sound
- Engineered to maintain clutch longevity
- Heat-resistant material for extreme off-road conditions
- 10-Year/Million Mile Limited Warranty

Not legal for sale or use on any pollution controlled motor vehicle in California. See knfilters.com for CARB status on each part for a specific vehicle.

PERFORMANCE OIL FILTERS

- Synthetic filter media provides excellent protection and high flow rates
- 1-Year Limited Warranty
- Ideal for use with synthetic or conventional oils

PROTECTION FOR WORK OR PLAY

K&N performance products are designed to increase engine protection and horsepower in your ATV or UTV in order to help you get the job done.

HIGH-FLOW AIR FILTERS™

- Designed to provide increased horsepower and torque
- Pleated media provides a large filtration area for long service intervals
- Multiple layers of tightly woven "XD" cotton media offer excellent filtration in dusty conditions
- Fits into your OE air filter assembly
- Washable and reusable
- Pre-oiled and ready to ride

PERFORMANCE OIL FILTERS

- Synthetic filter media provides excellent protection and high flow rates
- 1-Year Limited Warranty
- Ideal for use with synthetic or conventional oils

DIRT BIKE / MOTOCROSS

MORE BRRAAAP IN EVERY BOX

To conquer mountain trails, the demands of the track, or the challenges of dune riding, choose K&N performance products to help maintain exceptional protection and stellar performance for your dirt bike.

HIGH-FLOW AIR FILTERS™

- Designed to provide increased horsepower and torque
- Pleated media provides a large filtration area for long service intervals
- Multiple layers of tightly woven "XD" cotton media offer excellent filtration in dusty conditions
- Fits into your OE air filter assembly
- Washable and reusable
- Pre-oiled and ready to ride

PERFORMANCE OIL FILTERS

- Synthetic filter media provides excellent protection and high flow rates
- 1-Year Limited Warranty
- Ideal for use with synthetic or conventional oils

PROTECTION ON THE WATER AND IN THE SNOW

Help increase your watercraft or snowmobile's power potential with precision-engineered, enthusiast-tested performance products from K&N.

MARINE FLAME ARRESTORS

- Epoxy-coated aluminum wire mesh backfire screen resists corrosion
- Polished stainless steel top plates provide resistance to salt water
- Marine approved and meets US Coast Guard standards

HIGH-FLOW AIR FILTERS™

- High-flow media provides more airflow for improved throttle response
- Constructed with ultra-strong molded pliable rubber flanges
- K&N® Snowcharger® filter wrap available for use in extreme conditions
- Fits into your OE air filter assembly
- Washable and reusable

WRENCH-OFF® OIL FILTERS

- Synthetic filter media provides excellent protection and high flow rates
- Fast and easy Wrench-Off® removal
- Heavy-duty canister for outstanding durability
- 1-Year Limited Warranty
- Ideal for use with synthetic or conventional oils
