

INSTALLATION INSTRUCTIONS

Part Number: E-9233

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

INSTALLATION:

1. Remove the dirty filter from the air box.
2. Wipe out any dirt or dust that may be inside the air filter housing.
3. Install the K&N® FILTERCHARGER® onto the air box base (**Fig. 1**)
4. Install the included lid, with the K&N logo on the driver's side. (**Fig. 2**)
5. Reinstall the hardware that was previously removed to install the air filter.
6. Reinstall the air box lid.
7. With the new K&N® FILTERCHARGER® installed, clean an area in an obvious location and apply the K&N Stop Decal. The decal will help notify others servicing the vehicle that this is a re-usable filter.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.

CLEANING:

K&N Engineering, Inc., suggests checking the air filter element periodically for excessive dirt build-up. Depending on your driving conditions, we recommend cleaning your air filter every 75,000 miles. To clean and re-oil, purchase our filter Recharger® service kit, part number 99-5050 or 99-5000 and follow the easy instructions.
