Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modification will be required. However the following procedures MUST be followed to ensure the proper fit and seal of the K&N<sup>®</sup> air filter.

## **INSTALLATION:**

- 1. Locate air box
- 2. Remove air box cover
- 3. Wipe away any dirt from the air box cover to prevent dirt from falling into air box
- 4. Remove OE o-ring from air box lid. This will not be used with the installation of K&N® air filter. (Fig. 1)
- Remove OE air filter and install K&N<sup>®</sup> air filter. (Fig. 2 & 3)
  NOTE: The K&N<sup>®</sup> air filter was designed to fit in one direction. The Bump seal on K&N<sup>®</sup> air filter will fit into the top of OE air box where the OE o-ring was removed.
- 6. Reinstall air box cover and tighten screws. (Fig. 4 & 5)

## THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
