PRODUCT DETAILS:

K&N's "new" YA-2509 High-Flow Air Filter was developed exclusively for YAMAHA's 2009-2013 line of XT250 Dual Purpose bikes. This OE Replacement Air Filter was designed to provide low restriction, resulting in increased throttle-response, horsepower and torque. The K&N 7/8" deep pleated media provides a large filtration area offering high-capacity, long service intervals and [excellent filtration](#) while used in dusty conditions. Injection molded in-house with a durable Urethane one-piece molded framework offering a pliable yet secure mounting surface and is designed to drop directly into the OE Air Filter Assembly for years of long lasting protection. There should be no extra fitting or cutting required.

- No Fuel-management modifications necessary to obtain increased performance
- K&N High-Flow Air Filters have been made in the USA for over 40 years.
- Washable & reusable, pre-oiled and ready for installation
- [Covered by a K&N One-Year Limited Warranty®](#)
